In this 1 Year forecast for the By Country – Japanese Stocks Package, there were many high performing trades and the algorithm correctly predicted 6 out of 10 trades. 6920.T was the highest-earning trade with a return of 58.29% in 1 Year. Further notable returns came from 2160.T and 2930.T at 49.06% and 31.11%, respectively. The package had an overall average return of 3.81%, providing investors with a 11.20% premium over the Nikkei 225 return of -7.39% during the period.

Algorithmic traders utilize these daily forecasts by the I Know First market prediction system as a tool to enhance portfolio performance, verify their own analysis and act on market opportunities faster. This forecast was sent to current I Know First subscribers.

[How to interpret this diagram](#)

Algorithmic Stock Forecast: The table on the left is a stock forecast produced by I Know First's algorithm. Each day, subscribers receive forecasts for six different time horizons. Note that the top 10 stocks in the 1-month forecast may be different than those in the 1-year forecast. In the included table, only the relevant stocks have been included. The

boxes are arranged according to their respective signal and predictability values (see below for detailed definitions). A green box represents a positive forecast, suggesting a long position, while a red represents a negative forecast, suggesting a short position.
